

End User Licence Agreement

Jess Trading (JessTradingBots) — Range Breakout Bot

Last updated: 8 June 2026

This End User Licence Agreement (“EULA”) is a legal agreement between you (“Licensee”, “you”) and Joaquin Esperon Solari, an individual resident in Spain, NIF 42378795F, trading as “Jess Trading” / “JessTradingBots” (the “Licensor”, “we”). It governs your use of the Range Breakout Bot and accompanying materials (the “Software”). By downloading, installing or using the Software you accept this EULA. If you do not agree, do not use the Software.

1. Licence grant

Subject to your compliance with this EULA, the Licensor grants you a non-exclusive, non-transferable, non-sublicensable, worldwide, lifetime licence to install and use the Software for your own personal trading on the number of MetaTrader 5 accounts stated at checkout (up to two accounts). This is a licence to use the Software — it is not a sale of the Software itself.

2. Ownership

The Software, including the `.ex5` file, its strategy logic, pre-configured settings, documentation, and all intellectual property rights in it, remains the exclusive property of the Licensor. You acquire no ownership rights. All rights not expressly granted are reserved.

3. Restrictions

You shall not:

- copy the Software except as strictly necessary for your own permitted use and backup;
- sell, resell, rent, lease, lend, sublicense, distribute, publish or otherwise make the Software or its settings available to any third party;
- share your licence, account access or the `.ex5` file with anyone else;
- decompile, disassemble, reverse-engineer, or otherwise attempt to derive the source code or underlying strategy logic of the Software, except to the limited extent such restriction is prohibited by applicable law;
- modify, adapt or create derivative works of the Software; or
- remove or alter any proprietary notices.

4. Updates and support

We may, but are not obliged to, provide updates, fixes or new versions. When provided, updates are distributed through the buyer area or the private community channel and are governed by this EULA. Support is provided on a reasonable-efforts basis and may end without notice.

5. Third-party requirements

The Software runs inside the MetaTrader 5 platform and requires a compatible broker account and, for continuous operation, a suitable VPS. You are responsible for obtaining and maintaining these. We are not responsible for the conduct, fees, execution quality, downtime or terms of any broker, VPS provider or platform.

6. No warranty

The Software is provided “as is” and “as available”, without warranty of any kind, whether express or implied, including any implied warranty of merchantability, fitness for a particular purpose, profitability, accuracy or non-infringement. We do not warrant that the Software will be error-free, uninterrupted, compatible with every broker or MT5 build, or that it will achieve any particular result.

7. Trading risk and no guarantee

The Software is an automated trading tool. Trading forex and CFDs, including XAUUSD, carries a high level of risk; leverage can amplify losses, and depending on your broker and leverage your losses may exceed your initial deposit. Past performance and backtests are not indicative of future results. The Software does not constitute financial advice and does not guarantee any outcome. You alone are responsible for your trading decisions, settings, capital and choice of broker.

8. Limitation of liability

To the maximum extent permitted by law, the Licensor shall not be liable for any trading losses, lost profits, or any indirect, incidental, special, consequential or punitive damages arising out of or relating to the Software. The Licensor’s total aggregate liability under this EULA is limited to the amount you paid for the licence. Nothing in this EULA limits liability that cannot be limited under applicable law, nor your mandatory rights as a consumer.

9. Term and termination

This EULA is effective until terminated. It terminates automatically if you breach any of its terms, in particular the Restrictions in Section 3. On termination you must stop using the Software and delete all copies. Sections concerning ownership, restrictions, no warranty, trading risk and limitation of liability survive termination.

10. Governing law

This EULA is governed by the laws of Spain, without prejudice to any mandatory consumer-protection rules of your country of residence. The courts of Illes Balears, Spain shall have jurisdiction, subject to those mandatory rules.
