

Return & Refund Policy

Jess Trading (JessTradingBots)

Last updated: 8 June 2026

We would rather lose a sale than create an unhappy customer. Every purchase of the Range Breakout Bot comes with a **14-day, no-questions-asked refund window**.

1. The 14-day window

You have 14 days from the date of purchase to request a full refund for any reason. Try the Bot on a small or demo account, judge it for yourself, and if it is not for you, get your money back.

2. Your EU right of withdrawal

As a consumer in the EU you have a statutory right to withdraw from a distance contract within 14 days. The Product is digital content delivered electronically. Where you ask for immediate access and acknowledge that you lose the statutory withdrawal right once download begins, that statutory right may no longer apply — but our voluntary 14-day refund described above still does, and it is at least as favourable to you. Nothing in this policy removes any mandatory consumer right you have under applicable law.

3. How to request a refund

Refunds are handled through Whop, our marketplace and payment processor. You can:

- use the refund option inside your Whop dashboard; or
- email jesstradesinfobot@gmail.com with the email address you used at checkout, and we will process it for you.

4. When the refund is processed

Approved refunds are issued to your original payment method. Processing time depends on Whop and your bank or card issuer and typically takes a few business days.

5. After the window

Because the Product is a digital file delivered instantly, purchases are non-refundable after the 14-day window has passed, except where a mandatory consumer right requires otherwise.

6. Abuse

The refund window is offered in good faith. We reserve the right to decline a refund where we detect abuse — for example repeated buy-and-refund cycles, or evidence that the **.ex5** file has been copied, shared or redistributed in breach of the EULA or Terms of Service.
